

Finding True Love With Help From Beyond

Psychic Matchmaker Terri Manus uses her intuitive powers to successfully match men and women who have given up on the dating scene.

**Dating – Lifestyle Television**

**13 x 30'**

Psychic Matchmaker follows Terri and her apprentice Kayla as they match men and women using intuitive and psychic techniques.

In each episode Terri's next client is paired with three potential matches that she has chosen. Terri helps the client open their intuitive minds and use that to choose one that they feel may be the perfect match, they go on a date. Later on in the episode Terri sends her client on a second date with the best-suited match according to her own psychic reading and intuitive matchmaking abilities.

Is this a sure fire way to find true love?

## SAMPLE EPISODE TREATMENT

Our episodes run in the vein of Millionaire Matchmaker. Each episode opens with Terri and her assistant Kayla at their office. They discuss their next client and talk about the type of person she is and the hardships that she has gone through in the dating scene. Terri reveals the previous reading that she has done for her, the vibe that she received, and the glimpse into the future that she saw. A table full of Polaroid's sits in front of them with pictures of men. Terri runs her hand over the table and starts to feel potential matches for her client. Eventually Terri pulls three different matches that she intuitively feels will fit best with her client. The match begins.

The next day Terri meets up with all three of the gentlemen at their houses. She doesn't want to base her own decision on their personality but rather the intuitive feeling that she gets. So she first feels the energy at their homes before meeting them in person, and then during the one on one she limits each meeting to just 10 minutes. No personality questions, just intuition. Once she has completed her process she decides to make a decision on which she feels will be the perfect match for her client.

Kayla calls the client and sets up a meeting. When the client arrives Terri sits down with her to say she has three potential matches. Before revealing them, Terri conducts a mini workshop on opening her intuitive senses. In date one, the client will choose her own match. Terri wants to be sure her client is able to clearly choose the right fit and make that decision on her own. Three pictures come up on the widescreen TV and the client concentrates on who she feels will be her perfect match. Once a decision is made the client is ready to go on her date. Free will is involved and the date is in their own hands, so occasionally the match does not go perfectly.

Our cameras follow the date.

After the first date, the client discusses the outcome with Terri and Kayla and decides how the match fit her personality and likes. The client is free to continue dating that match or move on to someone completely new. In the case that Terri had a different person in mind as the better match, she will ask her client to try a second date with this second pick.

Our cameras follow the second date.

A review of the dates occurs and we see how well the intuitive decisions have matched things up. More clients continue to pile up and need help finding true love. Can Terri and Kayla keep up? Can they find true love by focusing beyond looks and personality? Psychic Matchmaker follows the exciting and interesting lives of our main characters and their clients.

## THE PRODUCTION / DEVELOPMENT COMPANY

### About La Vella Entertainment Group Inc

La Vella Entertainment Group's focus is in the development of television and film properties. Concepts, screenplays, talent and key crew attachment, pitches, and more. Once a production company or network green lights the project, it moves from our slate to the production company that will execute the series.

Amazing ideas often fall flat because of terrible treatment materials, a nervous pitch, or simply because the creator just doesn't know how and where to sell it. Our creative team has a combined 30 years of development and production experience.
